

The HQ Studio2 Frame

Compatible with HQ stand-up longarm quilting machines with throat spaces of 16"-20".

HQ *Studio²* FRAME

Made of high-quality steel, the HQ Studio2 Frame™ is a robust, professional-grade combination table and frame system for the home or professional studio.

HQ Studio2 Frame Features

- Choose the loading method you prefer with QuiltMaster™ DuoLoad™ system
- High-quality steel provides a solid, free-standing foundation for your quilting
- Zinc-plated hardware resists corrosion
- Choose from 10-foot or 12-foot length options
- Pole cradles provide accessibility for loading quilt batting
- Height-adjustable legs with self-leveling feet accommodate a variety of floor surfaces
- Set of three quality canvas leaders (with Velcro® attachment)
- Bungee-style elastic side tensioning system
- Built-in hand wheel, snap-in poles, and smooth-rolling bearings make advancing the quilt a simple task
- Batting storage pole keeps batting rolls off the floor

The new HQ Studio2 Frame shown with optional casters.

OPTIONAL ACCESSORIES

Now there are two ways to load your quilt with QuiltMaster™ DuoLoad™

HQ Studio2 Frame Loading Options

Standard Loading

Provides a visual reminder of actual quilting space and easy access to the bobbin area for oiling and bobbin changing.

ClearView Loading™

Often chosen for ruler work, this option clears the way for the use of longer or larger rulers and templates.
